

NIMSHA ERIN

PRODUCT DESIGNER(UX/UI)

PERSONAL PROFILE

I am a Product Designer (UX/UI) with hands-on experience designing mobile and web applications, collaborating with developers and product managers to deliver user-centered, data-informed digital experiences. I'm skilled in UX flow design, UI execution, and iterative product improvement through research and analysis.

AREAS OF EXPERTISE

UX Research (Qualitative & Quantitative)
UX Flow & Information Architecture
Mobile App Design (iOS / Android)
Design Systems
Usability Testing
Wireframing & Prototyping
Product Iteration & Improvement
Optimization
Figma / Adobe XD (explicitly)
Photoshop / Illustrator (explicitly)
Software Testing
Problem Solving & Analytical Thinking

WORK EXPERIENCE

SOFTWARE DEVELOPER-UI/UX

BlackVault Tech | Feb 2022 - Dec 2024

- Designed end-to-end UX flows and UI for mobile and web applications, prioritizing usability, consistency, and accessibility.
- Collaborated closely with developers and cross-functional stakeholders to translate product requirements into scalable design solutions.
- Conducted user research and usability testing to validate design decisions and improve user experience.
- Iterated on designs post-release using user feedback and performance insights to enhance product effectiveness.

BUSINESS PROCESS ANALYST

Divergent Square | Jan 2021 - Feb 2022

- Analyzed user and business workflows to identify pain points and optimization opportunities.
- Created visual process maps that informed UX flow improvements and design decisions.
- Worked with stakeholders to align user needs with business objectives.

ACADEMIC HISTORY

UNIVERSITY OF EAST LONDON

Masters of Science | 2024 - 2025

Masters in Computer Science
Distinction level award
